

# Summary of WB Letter Dated on May 2, 2013 Regarding PG&E's Work Plan for Chromium Plume Investigation in Response to CAO No.R6V-2008-0002A4

CAC and IRP Manger's Recommendations Regarding PG&E's Work Plan from April 19, 2013 Letter	Water Board Response to CAC and IRP Manager's Recommendations to Work Plan
1. Additional Monitoring Well in the Mulberry Road Area	Requiring PG&E to Install a Monitoring Well in the Mulberry Area
2. Additional Monitoring Well in the Residential Area North of the School	Can't Justify Adding a Monitoring Well Since Domestic or School Wells Results are not Above Maximum Background Concentrations
3. Additional Monitoring Well in the Area of Indian Wells Road	Same As Above
4. Further Investigation of Chromium "Finger" to the West	Will Require Additional Investigation if 1 <sup>st</sup> Quarter 2013 Results at MW-153S are Above Maximum Background Concentrations
