

Replacement Water Program Eligibility

Elegibilidad del Programa de Reemplazo de Agua

Eligibility

- **Your Residence Must Meet all of the Following Criteria:**
 - Property has a Residence
 - There is an Active Domestic Well
 - Residence is Located within 1 mile of the Cr6 Plume
- **The Well on the Property must have been Tested by PG&E within the last 12 months.**
- **Must have Cr6 greater than non-detect (i.e. 0.06 ppb)**
- **If the well has not been tested, or you are uncertain, contact PG&E.**

Options

- **Program Replaces the Bottled Water Program**
- **Will Provide a Reliable Water Supply for Indoor Uses (Drinking, Cooking, Bathing)**
- **PG&E will Pay for Installation, Maintenance and Monitoring of One of Two Systems:**
 - A Deeper Well
 - An Individual Whole House Water Treatment System
- **Either System will Deliver Water at Less than 0.06 ppb Cr6**
- **PG&E Has Committed to Work with You Individually to Define Your Best Option**

How Long

- **There are 2 Criteria on the Length of the Program:**
 - Up to 5 Years, *OR UNTIL*,
 - State of California adopts a drinking water standard for Cr6
- **When one of the two criteria are met, “PG&E will review the whole house water program, utilizing all available information to determine the future of the program.”**
