No Further Reporting Required by Pacific Gas and Electric Company, Former Waste Pit (Assessor Parcel No. 0488-074-03) and MW-163S/D Investigations (West Community Boulevard) Hinkley, Investigative Order No. R6V-2014-0019, San Bernardino County, Site Cleanup Program Case T10000005814

The Lahontan Regional Water Quality Control Board, finds that the length of time required for Pacific Gas and Electric Company (PG&E) to sample and report for petroleum hydrocarbons detected in groundwater monitoring well MW-163S/D downgradient of PG&E's Former Waste Pit and subsequent investigations under Investigative Order No. R6V-2014-0019 has concluded. At this time, no further investigation, sampling, or reporting under Investigative Order No. R6V-2014-0019 is required by PG&E (No Further Reporting). This finding is based on the information submitted by PG&E and with the provision that the information provided to this agency was accurate and representative of site conditions. Should future investigations and/or conditions at the site be shown to be a significant threat to health, safety or the environment, or if land use changes, the No Further Reporting status may be rescinded, and additional actions may be required of PG&E.

Please note that a finding of No Further Reporting is not a conclusion that all petroleum hydrocarbons have been removed and does not relieve the responsible parties of potential liability associated with remaining petroleum hydrocarbons.

PETER C. PUMPHREY, CHAIR | PATTY Z. KOUYOUMDJIAN, EXECUTIVE OFFICER
